

ELÄMÄN VÄRIT - THE COLOURS OF LIFE

The cooperative society called Elämän värit is well known for its home decoration textiles. On the curtains and pillow cases playful, happy animal figures are rambling on the flower meadows. The plentiful and joyful richness of colours is also characteristic to our fabrics. A short phrase that takes you to the fantasy world of fairy tales is included in the image of many products, too.

The decoration products will give a cosy and warm atmosphere to your home. The shades of the products vary from deep winter colours to bright summer colours. So it is easy for you to change the decoration colour from season to season. Naturally all our products can be made on individual orders and to the customers' colour attraction.

There are curtains, pillow cases, table runners, hand towels, oven gloves, trays, wine bottle holders, patch-work quilts, towels and sauna bench cloths in our programme. The materials we use are high-quality linen, cotton and linen-cotton. The images and phrases are printed manually on the fabrics and actual products.

Elämän värit was founded by nine women from Hankasalmi (Central Finland, Europe) ten years ago. One of the founders is Suvi Ylinen, graduated textile artist. She with her images is the heart of the team.

We have won several prizes with our needlework products. Our wine bottle holder Viinikko e.g. has won the best product award at the Forma Design Fair in 2004.
